Tel: 02188610120-1

Fax: 02188610122

Address: Department of Health Services, School of Public Health, Iran University of Medical Sciences.

Academic Rank: Full Professor

School: Public Health

Teaching experiences

Courses taught:

- Fundamentals of health planning
- Health indicators
- Health sciences research methods
- Assessing health care services
- Human communication in management
- Psychology and Management principles
- Health care services delivery system
- Fundamentals of health services
- Bioethics
- Management and organization in health sector
- Health care services management
- Holding special training courses for hospital managers of Iran University of medical sciences in 1998.
- Health economics
- Project management
- Inter-intra relationships

Levels taught:

- Ph.D.
- MP.H
- Medical students
- Master students
- B.S students

Pioneer in implementing following educational plans for health economics and health policy fields inside Iran:

1-Undertaking responsibility for educational programs for health economics in Ph.D. level due to the letter No. 1.16.473542 ordered by general manager of medical education development and evaluation office

and secretary of medical sciences supreme council planning office in 2008.

2-Responsible for establishment of educational programs for health policy field in Ph.D. level due to the letter No. 1.16.275670 issued by general manager of medical education development and evaluation office and secretary of medical sciences supreme council planning.

Educational Honors

1-Receiving the prize for a research titled “ **process of informational needs and behavioral patterns of medical students in search of medical information in clinical education**”, awarded by minister of health (Dr. Lankarani) in 2009.

2-Receiving the title of “**best professor**”, awarded by dean of Iran University of medical sciences in 2007.

3-Taking the prize for “**research in goals of university**”, given by dean of Iran University of medical sciences.

4-Receiving the prize for “**discretionary educational services**”, awarded by Representative Institution for Supreme Leader.

5-Receiving the title of “**premier Prof.**”, awarded by minister of health.

Attendances in introductory medical education courses:

Courses passed:

1-Introduction of basic curriculum

2-Curriculum planning

3-Teaching methods and techniques

4- Educational progress comprehensive evaluation

5-Research in education

6-Clinical training

7-Medical informatics-BEME

8-Introductory research methods

9-Advanced research methods

10-Usage of SPSS software

11-ICDL

12-Attending in introductory medical training workshop held by planning and development office of Iran University of medical sciences from 21/11/1994 till 21/12/1994.

13-Passing EPI training classes held by research deputy of ministry of health (lasted for 5 days (30 hours)).

14-Taking part in community-based medical training program arranged by planning and development office of Iran university of medical sciences on June 18, 1995(lasted for 2 days).
